- 📖 Finished the Oracle Database course. (2020)

AARON FRANS

JUNIOR GAME DEV

PERSONAL PROFILE

I'm a passionate Belgian developer who has explored various facets of game development. Without a doubt, it is the domain of AI that truly interests me. Among the many aspects of AI development, I find particular joy in crafting behaviors and pathfinding algorithms. These areas allow me to delve deeper into the intricacies of creating intelligent systems that enhance the gaming experience. Another aspect of programming I enjoy is the development of various tools, both in engine and outside of it.
